App Features

Job Information

Provide job information to your managers, supervisors, and workers. Schedule jobs. Keep job notes. Create Work Sheets.

Prepare a SWMS

Trades can prepare a Safe Work Method Statements (SWMS), on site using their smart phone. Supervisors review, and Workers can sign-on to the SWMS.

JSA / JSEA /Pre-Start/ QA Check Lists

Complete a check list before commencing work, take photos, take notes, and assign follow-up actions. Build your own templates for any type of inspection, pre-start, QA or pre-start process.

Job Documents

Upload files for each job using the Control Centre app. Provide Trades with on-line access to job documents.

Photos

Take photos of the job.

Time sheets

Trades can record time spent on each job and maintain their timesheets. Optional function to take a photo when starting a Job.

Safety Manual

Configure your online Safety Manual including Safety Data Sheets (SDS), & Standard Operating Procedures (SOP's).

Your Branding & Custom Features

The app can be branded with your company logo. Custom pages can be developed. Contact us for more information.

FREE TRIAL

Contact us for pricing and an obligation free trial. Conditions apply.
