App Features

Job Information

Provide job information to your managers, supervisors, and workers. Schedule jobs. Keep job notes. Create Work Sheets.

JSA / JSEA / Pre-Start/ QA Check Lists

Complete a check list before commencing work, take photos, take notes, and assign follow-up actions. Build your own templates for any type of inspection, pre-start, QA or pre-start process.

Photos

Take photos of the job.

Safety Manual

Configure your online Safety Manual including Safety Data Sheets (SDS), & Standard Operating Procedures (SOP's).

Job Documents

Upload files for each job using the Control Centre app. Provide Trades with on-line access to job documents.

Prepare a SWMS

Trades can prepare a Safe Work Method Statements (SWMS), on site using their smart phone. Supervisors review, and Workers can sign-on to the SWMS.

Time sheets

Trades can record time spent on each job and maintain their timesheets. Optional function to take a photo when starting a Job.

Your Branding & Custom Features

The app can be branded with your company logo. Custom pages can be developed. Contact us for more information.
